

HCII BASIC INTERACTION DESIGN COURSE SPRING 2009 FINAL CRITIQUE

**TUE 5 MAY
AND
THUR 7 MAY
9:00 AM -11:30 AM
3305 NSH**

How do controls, knobs, mobile life, and web experiences relate to Activating Public Landscapes?

Come join us to find out as students from the HCII Basic Interaction Design (BID) course showcase work outlining opportunities and design challenges around public interactive technologies. Groups have chosen specific locations around Pittsburgh, performed *in situ* research observations, assessed needs, and prototyped design solutions.

Each group will showcase a brief video of their final solution in action.

ACTIVATING PUBLIC LANDSCAPES

- **public fountain as interface**
- **dog park nostalgia networks**
- **your local mall as gameshow**
- **airport baggage claim animals**
- **stalking the Strip District**
- **food scanning gone wild**
- **retro surfaces at SouthSide Works**
