

SPRING 2011 FINAL CRITIQUE

INTERACTIVE EXPERIENCES + { PLANTS PETS KIDS }

Please join us as students from the HCII Basic Interaction Design course showcase work outlining opportunities and design challenges around interactive technologies for plants, pets, and kids. Groups have chosen specific areas of need, performed contextual research observations, and prototyped design solutions. Each group will showcase a brief video of their final solution in action.

Public Reception

Friday, April 29

1:00 - 2:00

GHC 6115
