# Redesigned Apple's Earphone Controls

Before

Difficult for the user to double and triple click the grey button in the cold winter
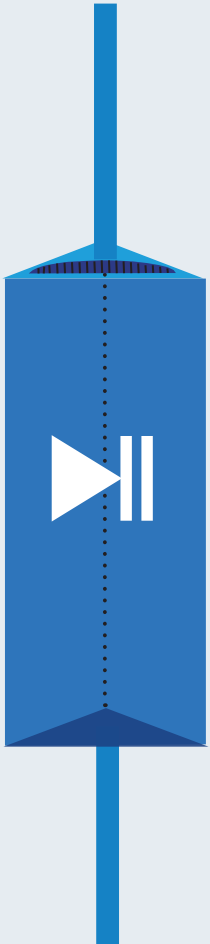

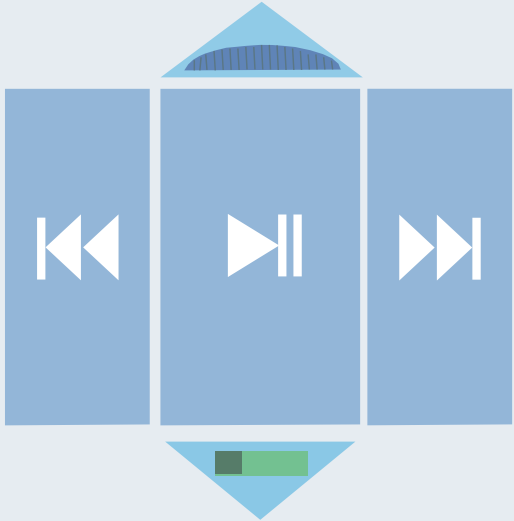

Cumbersome to change tracks frequently

Cannot use it to quickly repeat or shuffle tracks

Volume up

Play/ Pause: Single click

Go to next track: Double click

Go to previous track: Triple click

Volume down

To move between playlists: Press and hold center button and release after you hear a tone. When you hear the name of the playlist you want, click to select it.
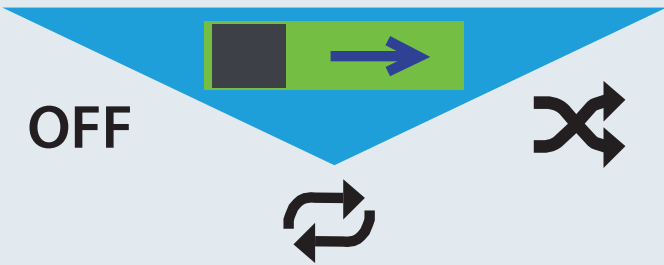

After

You can easily press each side of the prism to play, pause, and go to next track and previous track.

To move between playlists: Press and hold play/pause button and release after you hear a tone. When you hear the name of the playlist you want, click to select it.

Intuitive Thumb Wheel
Volume can be easily be controlled by scrolling the wheel.

top

New Options
